88a Worth of Comfort For a Few Cents.

There is a whole lot of comfort in loss of corns. If you have several and lose them all at once, the comfort is multiplied. A "Made in El Paso" article of great merit is "White's Guaranteed Corn Cure." The price is 35c a bottle and the comfort that results is worth dollars. The constantly increasing sale of this remedy is our strongest argument.

An increased critical faculty is one of the assets of this period of life; she knows herself, the knows her type, its fallings and good points. She knows how to dress well, how to carry herself with ease, she is conscious of her assets and how to guard. Improve and, enhance them. In short she is the finished product of her time.

The woman who has achieved her 40 years successfully rarely regrets her birthday anniversaries. She is conscious of her wider outlet on life, that she can take an objective view of experiences, past and present, that she can govern her emotions and susceptibilities, and, while keenly alive to all the pleasures of the world, she can rate them at their full value. If she has taken care of her body, it is lightsome and free; her skin may not have the man informal little supper at the Valley lim, Yaleia, Friday night.
